

# Southill Primary School

As readers, we will read books from our 'reading spine' as well as some class favourites. As writers, we will learn the story 'Monkey See, Monkey Do.' We will spend time learning about suffixes and write our very own journey tale.

As **mathematicians**, we will be learning about:

- Multiplication
- Division
- Fractions (halves and quarters)

As **scientists** we will be looking at animals including humans. We will look at how these living things can be classified, comparing similarities and differences. As part of this topic, we will learn about different animals and pets and create some information booklets about them.

## PAWS , CLAWS AND WHISKERS

Soft fur, sharp claws and twitching whiskers. What's your favourite animal? One that meows? One that barks? Or maybe one that scurries or slithers? From pets at home to animals in the zoo, let's find out what animals like to eat and where they like to sleep. Do you know how to look after a rabbit? A cat? Or even a snake? Find out how the elephant got his trunk and how the rhinoceros got his leathery skin. Perhaps you know how the dog got his waggy tail? Can you make a food chain to show who eats who? Who is a herbivore and who is a carnivore? When a gaggle of mysterious pets arrive at the local pet shop, it's up to you to take care of them. Feed them, clean them and discover their daily needs. After all that work, curl up and take a cat nap.

As artists, we will use a range of materials creatively to design and make products. We will use familiar animals prints as our focus, looking at pattern and texture. We will explore different ways of showing these using soft and hard pencils to create lines and shapes.
